

CCRN® Exam Review (Neonatal)

Course Description

This course is designed for the neonatal nurse seeking CCRN® certification offered by AACN. Neonatal-specific core topics will be discussed. The AACN exam outline and Synergy Model have been followed closely during the development of this course. Preparation is recommended before participating in this course.

Program Learning Outcomes

This program prepares the learner to:

- Describe the CCRN® Exam (Neonatal), test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.

Agenda

Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.
