

## Course Description

The CNRN® Exam Review course is designed to provide the neuroscience nurse a review of the topics presented in the CNRN® Examination. The course outline is based upon the blueprint of the CNRN® Examination provided by ABNN. The course provides the participant with hints and easy ways to remember certain pertinent information.

## Program Learning Outcomes

*This program prepares the learner to:*

- Describe the CNRN® Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.

## Agenda

*Sign-in begins at 7:30 am.* Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.
